

**Module Title : Prince2 Agile® Foundation**

**Duration : 2 days**

## Overview

PRINCE2 Agile is the world's most complete project management solution, combining the flexibility and responsiveness of Agile with the clearly defined framework of PRINCE2®. The new best practice guidance shows how this compatibility can be exploited by organizations harnessing both PRINCE2 and Agile, equipping them with the required skills and processes to successfully deliver projects to meet customer requirements in today's fast-paced and rapidly changing business environments.

PRINCE2 Agile® Foundation is a newly developed certification level to support PRINCE2 Agile. PRINCE2 Agile initially launched in 2015 with a Practitioner level certification and this new Foundation level certification will build upon that success by opening PRINCE2 Agile out to project managers outside of the existing PRINCE2 community.

Exam voucher is included with this training.

## Course Objectives

At the end of this course, learners will be able to:

The certification will help practitioners to:

- Understand the key concepts relating to PRINCE2.
- Understand the key concepts relating to projects and PRINCE2 Agile.
- Understand how PRINCE2 principles, themes, processes and management products are tailored and applied in an Agile context.
- Understand the agile ways of working, key terms and techniques.
- Understand the focus areas in an Agile context.

## Course Prerequisites

There are no prerequisites for taking the PRINCE2 Agile Foundation certification.

## Target Audience

The PRINCE2 Agile® Foundation course target audience includes but is not limited to:

- Agile professionals, Project Managers and aspiring Project Managers who want to be able to combine PRINCE2 and Agile in the most effective way when using PRINCE2, Agile behaviours, concepts, frameworks, and techniques

- Product Owners
- Scrum Masters
- Developers
- Business professionals with an interest in iterative and incremental project delivery by collaborating working
