

Module Title : CNS-221: Citrix NetScaler Unified Gateway

Duration : 2 days

Overview

Learn the skills required to configure and manage NetScaler Gateway and Unified Gateway features, including how to implement Gateway components including NetScaler Gateway and Unified Gateway. At the end of the course, students will be able to configure their NetScaler environments to address remote access requirements for Apps and Desktops.

What you'll learn

- Configure Authentication and Authorization
- Define End User Access and Experience
- Integrate NetScaler Gateway with XenApp and XenDesktop
- Integrate Unified Gateway with additional resources
- Employ recommended tools and techniques to troubleshoot common NetScaler Gateway network and connectivity issues

Prerequisite

- CNS-220 Citrix NetScaler Essentials and Traffic Management

OR

- CCNS-205: Citrix NetScaler 11 Essentials and Networking (legacy course that has been replaced by CNS-220)

Course Outline

Module 1: Unified Gateway

Module 2: AppExpert Expressions

Module 3: Authentication, Authorization, and Secure Web Gateway

Module 4: Managing Client Connections

Module 5: Integration for XenDesktop and XenApp Solutions

Module 6: Configuring Unified Gateway

Module 7: NetScaler Insight Center
