

Module Title : Prince2 Agile® Practitioner

Duration : 3 days

Overview

PRINCE2 Agile is the world's most complete project management solution, combining the flexibility and responsiveness of Agile with the clearly defined framework of PRINCE2®. The new best practice guidance shows how this compatibility can be exploited by organizations harnessing both PRINCE2 and Agile, equipping them with the required skills and processes to successfully deliver projects to meet customer requirements in today's fast-paced and rapidly changing business environments.

This course helps experienced PRINCE2 Practitioners and/or experienced Agile Practitioners understand how the PRINCE2 governance model can be applied to Agile environments. By taking this course, experienced PRINCE2 practitioners develop management controls for agile development, while experienced agile practitioners understand PRINCE2 governance requirements. Exam voucher is included with this training.
