

**Module Title** : **Secrets to Successful Cloud Transformation**

**Duration** : **1 day**

## Description

In this course, you will learn how to select the right strategy, people, migration plan, and financial management methodology to move your workloads to the AWS Cloud. You will learn how to build a holistic cloud adoption plan and how to hire people to execute that plan. You will learn best practices for choosing workloads to migrate from your on-premises environment to AWS. You will also learn best practices for managing your AWS expenses and dealing with internal chargebacks.

This course focuses on the business aspects of cloud transformation, rather than the technical aspects.

## Intended Audience

This course is intended for:

- IT/senior managers
- Solutions architects/enterprise architects
- Operations professionals

## Course Objectives

In this course, you will learn how to:

- Build your cloud strategy
- Develop a hiring plan for your cloud team
