Exam :: EX300 ::

Module Title	:	**EX300 - Red Hat Certified Engineer (RHCE) Exam**
Duration	**:**	**4 hours**

Exam Description

This exam and the exam objectives provided here are based on the Red Hat Enterprise Linux 7 version of the exam. We are offering Red Hat Certified Engineer (RHCE) Exam (EX300) on Red Hat Enterprise Linux 6 via onsite and Individual Exam Sessions. View the Red Hat Enterprise Linux 6 exam objectives.

The performance-based Red Hat® Certified Engineer Exam (EX300) tests to determine if your knowledge, skill, and ability meet those required of a senior system administrator responsible for Red Hat Enterprise Linux® (RHEL) systems. Red Hat Certified System Administrator (RHCSA) certification is required to earn Red Hat Certified Engineer (RHCE®) certification.

About the RHCE Certification

An RHCE certification is earned by a Red Hat Certified System Administrator (RHCSA) who has demonstrated the knowledge, skill, and ability required of a senior system administrator responsible for Red Hat Enterprise Linux systems.

Exam Detail:

- Review exam objectives for the RHCE Exam.
- Candidates must have earned their RHCSA certification to be eligible to become an RHCE.
- The certification exam is performance-based, meaning that candidates must perform tasks on a live system, rather than answering questions about how one might perform those tasks.
- The hands-on nature of this exam make real-world experience a critical facet of preparation.
- Exam results are emailed within 3 business days following the exam.
- An RHCE, who is certified on Red Hat Enterprise 6, will have a 'current' status for 3 calendar years. This 'current' window can be extended by earning additional Red Hat credentials. See recertification policies for more information.

Audience:

- Experienced Linux IT professionals who currently have RHCSA certification and are interested in earning an RHCE certification
- Experienced Red Hat Enterprise Linux system administrators seeking validation of their skills
- Students who have attended the Red Hat System Administration I, II, and III or RHCE Rapid Track courses
- Experienced Linux system administrators who require a certification either by their organization or based on a mandate (DOD 8570 directive)
- An RHCE who is noncurrent and has passed the RHCSA exam

Prerequisites:

- RHCE Rapid Track Course, System Administration I, II, or III or equivalent experience
- Real-world system administration experience

Recommended Training:

In preparation to earn an RHCSA, Red Hat recommends:

Audiences	Recommended Action
Windows system administrators	Red Hat System Administration I (RH124)
	Red Hat System Administration II (RH134)
	Red Hat System Administration II with RHCSA Exam (RH135)
	Red Hat System Administration III with RHCSA and RHCE Exams (RH255)
	Red Hat System Administration III (RH254)
Linux system administrators (1-3 yrs of experience) and Unix system administrators	RHCSA Rapid Track Course with Exam (RH200)
	RHCSA Rapid Track Course (RH199)
Solaris system administrators	Red Hat Enterprise Linux for Solaris Administrators (RH290)
	RHCE Rapid Track Course with RHCSA and RHCE Exams (RH300)
	RHCE Rapid Track Course (RH299)

Audiences	Recommended Action
Senior Linux Administrators	[RHCE Rapid Track Course with RHCSA and RHCE Exams (RH300)](#)
	[RHCE Rapid Track Course (RH299)](#)
