Course Outline :: H005 ::

**Module Title** : **Course H005 : IBM Platform Elastic Storage (GPFS) System Administration for Linux**

**Duration** : **3 days**

## Overview

This course is intended for IT professionals tasked with administering a GPFS system. This course includes information on installing, configuring and monitoring a GPFS cluster. Many features are described and tested in hands on lab activities including: Storage management, HA options, cluster management and information lifecycle management (ILM) tools.

## What You'll Learn

- Install and Configure GPFS
- Use Administration Tools
- Implement a highly available GPFS cluster
- Describe the ILM tools available and how to use them

## Prerequisites:

You are expected to have a good understanding of UNIX/Linux, SAN and Storage concepts.

## Course Outline

- Introduction
- Installation and Configuration
- GPFS Cluster
- Information Life Cycle Tools
- High Availability
- Management and Monitoring
- Multi-cluster
